# What is ED ARCADE ?

EDArcade is an online educational games platform. Our aim is to encourage and develop students learning through fun and engaging game-based learning. The games are focused towards primary education for students of all abilities.

## Progress Reports, Tracking and Feedback

Your students' progress and performance over time will be recorded as graphical data, allowing you to easily view their development and make comparisons of progression between individuals, cohorts and subjects.

## Our Content

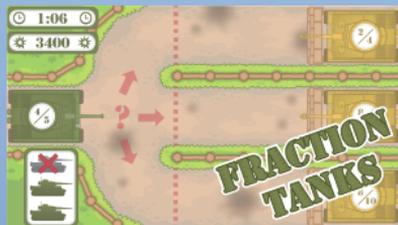

Our library includes over 85 educational games that link to a range of core subjects including English, Maths, Science, Internet Safety and Child Protection. We design and develop our games to fit with the National Curriculum.

Addition

Nonsense Words

Fractions & Equivalent Fractions

Times Tables

**Ask us how ED Arcade can help with EAL!**

Each game in our library is linked to one or more of the following subjects :

Each game is also linked to a specific topic. Some of these are linked to several topics and are labelled in this booklet as 'Multiple Topics'.

## 360° Defence

**Subject/s:**  Maths

**Topic/s:** Angles

The Earth is under attack from invading aliens! They must be stopped! Use angles to destroy the enemies in this tower defence game. Build and upgrade your towers to save the planet from invaders.

## Add It Up

**Subject/s:**  Maths

**Topic/s:** Addition

Test your mental agility with this fast paced adding game. Create number chains to reach a target score as quickly as possible.

## Alien Escape

**Subject/s:**  Maths  Geography  Science  PE

**Topic/s:** Multiple Topics

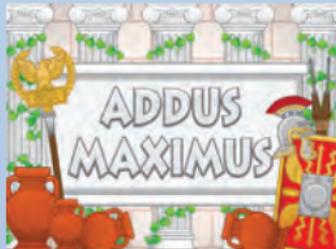

Aliens have broken out of their cells at Moon Prison Alpha. As a guard you need to stop them from escaping. Answer questions to arm yourself with the latest in paintball technology. Stop as many waves of aliens from escaping as possible.

## Addus Maximus

**Subject/s:**  Maths

**Topic/s:** Addition & Roman Numerals

It's time to test your number skills once again at the temple of numeracy in Addus Maximus. The temple elders will be testing your adding ability. They will give you a target number that you need to make using a set of Roman numeral terracotta tiles. Create number chains that correctly add up to the target score. Make as many chains as you can before you run out of time.

## Alphonics

**Subject/s:**  English

**Topic/s:** Spelling

Time to get out your old letter blocks. This is a simple spelling and phonics based game that will test your language skills. Using your letter blocks you will need to correctly name as many objects as possible before you run out of time.

## Archer Ace

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Roll up, Roll up! Test your skills in this all-time classic carnival game. Answer questions to gain arrows and then shoot the moving targets. Simply try and get the highest score with the arrows available to you. How many bullseyes can you get?

## Atom Lab

**Subject/s:**  Science

**Topic/s:** Elements & Atoms

Welcome to the Atom Lab. In this game you need to build requested atoms. In the atom building business, time is money so you need to make as many atoms as possible within a time limit.

## Balance Bridge

**Subject/s:**  Maths  Science

**Topic/s:** Weights & Balancing

Welcome to Edopolis, the city famous for its unique Balancing Bridges. In order to cross these bridges you will need to balance them correctly using a collection of weights. If the weights don't match then you may be in for a fall. Hope you're not scared of heights.

## Balloon Times

**Subject/s:**  Maths

**Topic/s:** Multiplication & Times Tables

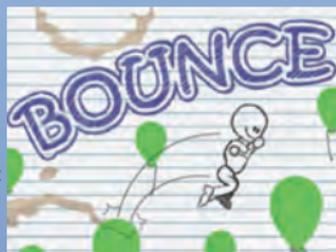

This light-hearted balloon game will test your times tables knowledge. Groups of numbered balloons will appear and a target times table to complete. You simply need to pop the right balloons in the right order for as many target times tables as possible.

## Bounce

**Subject/s:**  Maths

**Topic/s:** Prime Numbers

Help Sketch navigate his way up the the page in this balloon bouncing game. You need to bounce on correct balloons in order to progress higher. Don't land on any incorrect ones though or you might be in for a hard landing. Try and get as high up The Page as you can. You never know, you might get to the top.

## Bowled Crazy

Subject/s:

Topic/s: Basic Arithmetic

Break through the tiles to reveal images and questions in this game of skill and knowledge. Use one ball or risk them all in the pursuit of points. 3 game modes to test your knowledge while you smash tiles using various power-up balls.

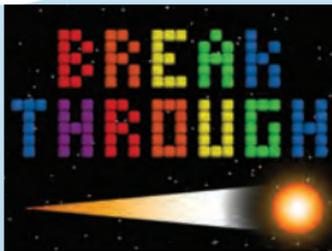

## Break Through

Subject/s:

Topic/s: Shapes

Break Through the tiles to reveal images and questions in this game of skill and knowledge. Use one ball or risk them all in the pursuit of points. 3 game modes to test your knowledge while you smash tiles using various power-up balls.

## Bridged

Subject/s:

Topic/s: Spelling

In a strange and mysterious mountain pass, crossing rivers is done a little differently. Here you will need to spell bridges in order to construct them. Try and cross as many rivers as possible before your fuel runs out. Be careful though, as any incorrectly spelt bridges will break when you try to cross them and you'll end up floating down the river.

## Bubble Drop

Subject/s:

Topic/s:

Shapes, Food, Flags, Planets, Numbers, Senses, Circuits etc.

In Bubble Drop you need to make chains of matching pictures and accumulate as many points as possible. Larger scores can be gained by creating longer picture chains.

## Buccaneer Booty

Subject/s:

Topic/s: Coordinates, Compasses & Map Reading

Arghhhhh! Avast ye landlubbers! In this game there be treasure waiting for an enterprising pirate to find. It just so happens that you have the map and a pack of clues to help you find them. Use your geographic knowledge of maps and coordinates to decipher the clues and discover the loot.

## Camel Racing

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

It's time to race! Test yourself in this classic mechanical fairground game. Answer multiple choice questions to earn throwing balls. Use the balls to hit the target area to make your racer move. Use both speed and skill to beat the other racers.

## Cat's Phrase

**Subject/s:**  English **Topic/s:** Sentence Structure

Ladies and gentlemen welcome to the new game show... Cat's Phrase. Join Tommy Tomcat for a night where anyone can be a winner. In this game show Tommy will give you a sentence where he has left out every alternate word. All you need to do is fill in the blanks from a list of possible answers.

## Chicago's

**Subject/s:**  Maths **Topic/s:** Time Management

You are a personal shopper under the employment of the brand new Chicago's Mall. Your job is to quickly navigate the mall and collect specific items for clients. Get through as many client shopping lists as possible before your shift is over.

## Choco Blocks

**Subject/s:**  Maths **Topic/s:** Fractions

Choco Block is a chocolaty numeracy game that puts your fractions knowledge to the test. Your aim is to fill as many chocolate containers with the right amount of delicious confectionery before you run out of time.

## Circulator

**Subject/s:**  Science **Topic/s:** Blood Circulation

In this pipe puzzle game you need to correctly connect the flow of blood from the heart to particular organs. Link oxygenated blood (red pipes) to an organ so it can continue to function properly. You also need to link the deoxygenated blood (blue pipes) from the organ back to the heart. Make a complete blood circuit to keep the body working.

## Coloured Words

**Subject/s:**  English

**Topic/s:** Colours & Word Recognition

Test your mental capabilities in this brain training game. The aim of the game is to select the correct colours for falling words. You have to either select the colour that a word says or select what colour the words are. Prepare to have your brain stretched!

## Coconutted

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Roll up, Roll up! Test your skills at the coconut shy in this all time classic carnival game. Answer questions to gain ammunition and try to knock down as many coconuts as possible.

## Cracking Clocks

**Subject/s:**  Maths

**Topic/s:** Analogue & Digital Time

Time locked vaults are the latest rage in treasure security. They can only be opened by matching the time 'codes' of both the analogue and digital clock locks. You need to try and open as many of these vaults a possible within a given time limit. How much gold can you collect?

## Cyber Surfer

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Surfs up dude! It's time to catch a wave in the online digital data stream. Navigate your way safely along internet strands using nothing but your board and surfing skills. Collect safe data and files whilst trying to avoid unsafe ones such as malware, phishing, spyware etc. Good luck and safe surfing.

## Duck Shoot

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Roll up, Roll up! Test your skills in this all time classic carnival game. Answer questions to gain ammunition then shoot down as many targets as possible.

## Dominumbers

**Subject/s:**  Maths

**Topic/s:** Subtraction, Addition, Division & Multiplication

A simple maths game that tests your addition, subtraction, division and multiplication using dominoes. Your goal is to create the longest domino chain possible within a time limit.

## Edoku

**Subject/s:**  Maths

**Topic/s:** Inequalities

Edoku is an alternative take on a classic brain training game. You will need to complete grids where each row and column has to be filled in with numbers between 1 and 9. Numbers cannot repeat in a row or column and must match up to the inequality symbols on each grid.

## Factor Fury

**Subject/s:**  Maths

**Topic/s:** Factors

Get ready for some Factor Fury fun. You are a factor destroying node that must navigate its way through the numerical ether. Your aim is to get rid of numbers that are factors of a target number. Use both your maths skills and flying ability to achieve your goals.

## Feed the Speed

**Subject/s:**  Science

**Topic/s:** Speed & Time

It's time to put the pedal to the metal in this high-octane racer. The aim is simple; get around the track in the fastest time possible. Go the distance, become a champion and above all else.... 'Feed the Speed!'

## Feed the Speed: Ice Truck Racing

**Subject/s:**  Science

**Topic/s:** Speed & Time

Put your pedal to the metal in this second vehicular installment... Ice Truck Racing. As a high speed trucker your aim is to deliver cargo to the neighbouring villages in a frozen tundra. Race the clock, deliver the goods and as always.... 'Feed the Speed!'

## Flight Math

**Subject/s:**  Maths

**Topic/s:** Multiplication & Times Tables

This flight simulator will not only test your flying prowess but your mental arithmetic. You need to fly through correct answer rings in order to gain points.

## Fly By

**Subject/s:**  Maths  Science  Food Studies

**Topic/s:** Shapes, Metals, Food, Energy, Acids & Alkalis

Good morning recruits! Your mission, if you are daring enough to accept it, is to liberate vital supplies from the villainous enemy. You must liberate the correct supplies that HQ has specified. Avoid other supplies as they are surely sabotaged. Tally-Ho and chocks away!

## Food Factory

**Subject/s:**  Food Studies

**Topic/s:** Recipes & Ingredients

Welcome to the Food Factory; the first factory of its kind to use artificial intelligence. We take pride in making the finest cuisine in the land. Unfortunately the machines have a tendency to break. As our new employee you need to make sure ingredients go in the cooker and broken machine parts go in the furnace. No one wants a rivet burger after all!

## Fraction Tanks

**Subject/s:**  Maths

**Topic/s:** Fractions & Equivalent Fractions

Prepare yourself for battle! Lead your tank convoy to push through the enemy blockades. Your tanks will be painted with a fraction. Your aim is to destroy enemy tanks that are painted with equivalent fractions. Our intelligence suggests that these vehicles are the weak points in the enemy lines. Good luck soldier!

## Frantic Fishing

**Subject/s:**  English

**Topic/s:** Nonsense Words

It's time to join the crew of an Atlantic fishing trawler. In these waters you'll be trying to catch one type of linguistic fish, the real word fish. There is another type known as the nonsense fish which you will need to throw back into the sea. As a crew member is to sort the fish you catch. Be wary of junk floating in the sea and keep your eye out for any treasure you may find. Prepare yourself for some frantic fishing!

## GAME ON DARTS

## Game On Darts

**Subject/s:**  Maths

**Topic/s:** *Subtraction, Addition & Multiplication*

Get ready to play some darts. You can play three different game types which are target score, countdown and blackout. In target score you need to reach a certain score in as few darts as possible. In countdown you need to get from a score to zero in as few darts as possible. In blackout you need to reach a target score in as few darts as possible but you can't use a section more than once.

## Grammar Cannon

**Subject/s:**  English

**Topic/s:** *Grammar*

Welcome to the articulate artillery. Your job is to fix linguistic problems using nothing more than your brain and a fifty pound grammar cannon. You need to modify rotten sentences by blowing away the incorrect grammar and replacing it with the correct amendments. Good luck.

## Hole Shapes

**Subject/s:**  Maths

**Topic/s:** *Shapes, Subtraction, Addition, Division & Multiplication*

Is it possible to get a square peg in a round hole? It is in Hole Shapes. You need to try and alter shapes so that they will fit into particular holes. Use a calculator to increase and decrease the number of sides on the shapes. Be careful though as some of the buttons have a habit of going missing.

## Hook A Duck

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** *Multiple Topics*

Roll up, Roll up! Test your skills in this all time classic carnival game. Answer questions to gain hooks then hook up as many targets as possible.

## Hooked

**Subject/s:**  English

**Topic/s:** *Verbs, Nouns & Adjectives*

It's time to go fishing. In these linguistically charted waters there are a number of weird and wonderful fish ready to be caught by the experienced fisherman. Such fish include the Noun Trout, the Verb Turbot and the Adjective Cod. Catch as many specific fish as possible within the allotted time whilst avoiding dangers such as sharks and sea mines. You may need a bigger boat!

## Infection

**Subject/s:**  Internet Safety

**Topic/s:** Internet Security & Viruses

Infection is a fast paced defence game. It is time to delve deep into the digital data stream. You are a sophisticated antivirus tasked with protecting your computer system from dangerous and malicious viruses. You will need to assess if files, programs or software are safe to allow into your system. Defend your system and make sure you don't become infected!

## Javelin Thrower

**Subject/s:**  Maths

**Topic/s:** Distance & Estimation

As an athlete you need to train your mind as well as your body. In this game you will be practising your javelin throwing skills. Try and throw javelins as far you can whilst taking into account power and wind. You will also need to estimate how far you have thrown your projectile in order to gain points. It's time to throw, guess and go.

## Kebab Hero

**Subject/s:**  Food Studies

**Topic/s:** Foods

Are you still hungry? Then come on down to the Kebab Hero. You will need to take customer's orders and serve them as quickly as possible. Wait for the right 'ingredients' to fall from the 'food shoot' to make a correct order. At Kebab Hero the ingredients are a little strange such as flags and shapes. Your shift is not that long so we need lots of orders to get served.

## Language Luggage

**Subject/s:**  Oull MFL

**Topic/s:** French, Italian, Spanish & German

This game will test your foreign linguistics. A flight has just landed at ED Airways and the passengers are ready to collect their luggage. The passengers are from all over the world and their luggage is labelled in their own language. You need to sort it and give it to its rightful owner.

## Magically Qwerty

**Subject/s:**  English

**Topic/s:** Typing & Spelling

You need to defend your castle walls against the goblin hoards who want to steal your gold. Choose a wizard to protect the walls from the warty invaders. You need to type out spells correctly and as quickly as possible to defeat the enemies. Stop as many as you can before you are overwhelmed. Let the light conquer over darkness.

## Magnet Mayhem

**Subject/s:**  Science

**Topic/s:** Magnetism & Materials

Welcome to the Rust Recycling facility. At Rust we use a state of the art electromagnet to sort the magnetic materials that come through our facility. As our magnet operator your task is simply to collect as much magnetic material from the warehouse and put it in to our recycling smelter. Recycle as much material as you can before the magnet's charge is depleted.

## Meteorite Strike

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Meteorite strikes are imminent! Echo is a class five deep space mining ship. As a new crew member you must prevent the regular meteorite storms from hitting the ship. Answer questions to arm your cannons and try to hold back as many waves of meteorites as possible.

## Money Matcher

**Subject/s:**  Maths

**Topic/s:** Money, Subtraction, Addition, Division & Multiplication

It's time to test your monetary skills in Money Matcher. Use coins and notes to make correct values of money in order to solve a series of numerical conundrums.

## Number Blox

**Subject/s:**  Maths **Topic/s:** Addition

This is a fun and simple adding game. Who needs fingers for counting when you can use a colourful set of number blocks? Use your blocks to work out as many counting conundrums as possible before the timer runs out.

## Pack 'N' Go

**Subject/s:**  Maths  Science  Geography **Topic/s:** Shapes, Angles, Flags, Foods, Energy, Money, Energy Sources etc.

Supply and demand has never been so demanding! You are in charge of a haulage company supplying stock to stores. This is a categorising game where you need to order category boxes into their correct vehicle. Fill vehicles as quickly as possible with the right boxes and get them to the stores before they run out of stock.

## Paintball Z

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

Undead cardboard zombies are terrorising the world and turning people into paper pulp. You must use your cunning and wisdom in order to survive. Answer questions to gather supplies and paintball ammunition. You must survive as many waves of cardboard undead as possible or risk being turned into pulp.

## Paint Sum Pictures

**Subject/s:**  Maths **Topic/s:** Addition & Subtraction

It's time to get artistic in this colourful arithmetic based game. Choose from a selection of pictures to paint. The paint, however, will not attach to the canvas unless you correctly answer a mathematical sum. Grab your paint brush and lets 'Paint Sum Pictures'.

## Paperpult

**Subject/s:**  Maths **Topic/s:** Angles

Get ready for some Paperpulting fun. Your aim is to knock over the sketched fortifications and men using a catapult fashioned from every-day stationery. You will have to set up the angle of your shots. Try and complete levels using as few shots as possible in order to gain more points. All that is left to say is... ready, aim, FIRE!

## Pathode

**Subject/s:**  ICT **Topic/s:** Coding

Assist BA-11 in traversing the codesphere. Unfortunately its auto-directional functions have malfunctioned so you will need to code its movements yourself. Help it to overcome multiple code layers to get to the end node.

## Pengo

**Subject/s:**  Maths **Topic/s:** Shapes

Help Sketch in his adventure to reach the end of the Page. Navigate over dangers and obstacles to reach your destination.

## PeriscopED

Subject/s:

Topic/s: Coordinates

Up periscope! You are a submarine captain and your mission is to blow up as many of the enemy positions as possible. Select correct coordinates in order to hit the enemy when you fire your torpedoes.

## Piece of Cake

Subject/s:

Topic/s: Fractions, Equivalent Fractions & Percentages

Welcome to the 'Piece of Cake' patisserie. We pride ourselves in making the best custom made cakes that combine a mixture of delicious flavours. If you feel like a half blueberry and half coffee cake or even a quarter chocolate and three quarters candy cake then come on down. Our dedicated staff aims to make your unique cake correctly to your specifications as quickly as possible. It's just a piece of cake.

## Plot to Plot

Subject/s:

Topic/s: Coordinates

In Plot to Plot you will need to try and create shapes by correctly completing puzzling plotting problems. Make shapes by correctly marking out their coordinates. Try and build as many shapes as possible before you run out of time.

## Prefixing

Subject/s:

Topic/s: Prefixes

Prefixing is an English language based game. Your task is a simple one. Match prefixes to their counterpart words to build complete words. Create as many full words as possible before you run out of time.

## Prime Bandits

Subject/s:

Topic/s: Prime Numbers

The aim of the game is to shoot the prime number aliens and avoid the composite number aliens.

# Road Hog

## Road Hog

**Subject/s:**  Maths  Geography  Science  PE **Topic/s:** Multiple Topics

You are a pig who has just escaped from the local butchers! Unfortunately a busy main road is between you and freedom. The aim is to cross the road without being turned into pork chops. You need to answer questions correctly in order to do so. But time your answers right so you don't get hit by traffic.

## Robot Attack

**Subject/s:**  Maths

**Topic/s:** Number Bonds

The number droids are invading. Use your numerical annihilation cannon to bond your sum ammunition with your foe on a molecular level to disintegrate them. Survive as many ever increasing waves as possible.

## Rolling Rolling

**Subject/s:**  Maths

**Topic/s:** Probability

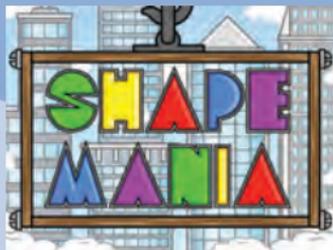

Lets shake, rattle and roll! It's time to see just how good your probability skills are. Your aim is to correctly predict the outcome of your dice rolls. Try and get as many right in a row to increase your score multiplier and to become a Rolling Rolling ace.

## Roman Stack

**Subject/s:**  Maths

**Topic/s:** Maths, Addition, Roman Numerals

It's time to test your number skills at the temple of numeracy in Roman Stack. Your task is to find correct Roman numeral tiles and build as many terracotta number tile stacks as possible. You need to do this before you run out of time. The stacks you build will be later used by the temple elders for complicated calculations.

## Shape Mania

**Subject/s:**  Maths

**Topic/s:** Shapes & Spatial Awareness

Construction of a new building is under way in Shapeopolis and the builders require your assistance. Your task is simple; you need to fill crates with shape materials that will be used further up the construction. Make sure all the shapes you have fit in the crates and the lid can fit on, otherwise they can't be moved and you'll have a lot of angry builders to deal with.

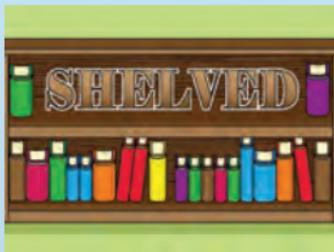

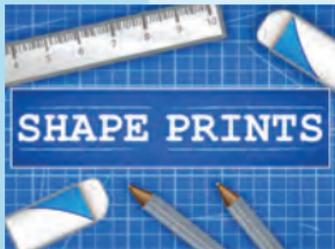

## Shape Prints

**Subject/s:**

**Topic/s:** Identifying Shapes

Shape Prints is a basic shape identifying game. You will be given a number of pattern blueprints to check. Your task is to identify the number of different shapes in the patterns before the prints are moved on. Try and get through as many blueprints as possible before the time runs out.

## Shelved

**Subject/s:**

**Topic/s:** Charts, Energy, Materials,  
Energy Sources & Types  
of Wave

Who said libraries were boring? This is a quick categorising game where you need to place books on to their correct shelves. Place as many books as possible within a time limit.

## Shoot the Fruit

**Subject/s:**

**Topic/s:** Subtraction, Addition,  
Division & Multiplication

Crossbows at the ready! Test your maths skills in this fruit shooting game. Your aim is to complete sums by shooting fruits that have the answers on them. Get as many answers correct with the available bolts. If you are good enough then you may even get the Midas Touch.

## Smooth Operator

**Subject/s:**

**Topic/s:** Maths, Operators

Smooth Operator is a simple sums game. You will be given an incomplete sum where the operators are missing. Your aim is to place in the correct operators in order to complete the sum.

## Space Explorer

**Subject/s:**

**Topic/s:** Solar System

It is time to look towards the vast emptiness of space. Using a giant satellite telescope you will need to find and identify the many planets and moons within our solar system. How much will you discover?

## Spellbound

**Subject/s:**  Internet Safety

**Topic/s:** Internet Safety,  
Social Media Safety

Welcome to Spellbound, a unique online environment for the magically gifted community. As a user of Spellbound you need to always be aware of what wizards or witches you add and talk to. In this session you will receive a lot of wizard requests. You need to decide whether they are safe or too risky to accept. Stay magical, stay Spellbound and above all... stay safe!

## Spelling Bee

**Subject/s:**  English

**Topic/s:** Spelling

In this game you are a bee. You are not just any bee, you're a Spelling Bee. You collect pollen from the spelling sunflower. As a worker bee you need to avoid misspelt sunflowers and collect the pollen from the correctly spelled ones. This is important as you don't want pollen that is going to make substandard honey. The better the pollen, the yummiier the honey.

## Spell-o-Rama

**Subject/s:**  English

**Topic/s:** Spelling

Invented by Dr Lang, the Spell-o-Rama is the latest in linguistic innovations. Use the machine to physically build words correctly. The sentence manufacturers are always in need of words for their construction teams, so get building!

## Spell-o-Vision

**Subject/s:**  English

**Topic/s:** Spelling

Dr Lang has been busy building more linguistic inventions. His latest is the Spell-o-Vision, a machine designed to quicken your mind and language skills. As a willing test subject you get to try it out. Your aim is to correctly type out what the television is showing you. Try and do this for as many images as possible within the time limit.

## Suffix It

**Subject/s:**  English

**Topic/s:** Suffixes

Suffix It is an English language based game. Your task is a simple one. Match suffixes to their counterpart words to build complete words. Create as many full words as possible before you run out of time.

## Sweet Deal

**Subject/s:**

**Topic/s:** Charts & Graphs

The sweet stock exchange is ready for business. 4 of the biggest confectionary companies have their stock brokers ready to buy some sweet shares. You have the majority of the current shares. Using a variety of graphs you need to correctly divide up your shares between the 4 major companies. Sell as much as possible and make yourself a Sweet Deal.

## Temple of Ra

**Subject/s:**

**Topic/s:** Light & Reflection

Welcome fellow adventurer to the Valley of the Kings where fame and fortune awaits. An extraordinary new tomb has recently been discovered called the Temple of Ra. Strange crystals have been found that are key to unlocking more of the tomb which are apparently powered by the sun. Use mirrors in tomb to reflect light in a path to these 'sun crystals' so you can explore the darker depths.

## Tillicious

**Subject/s:**

**Topic/s:** Money

You are a new employee at the Tillicious super store. Your job is to man the till during the busy period in the store. You need to pack customer's shopping and handle their money. You'll need to hurry to get through as many customers as possible before the busy period finishes.

## TiltED

**Subject/s:**

**Topic/s:** Shapes & Spatial Awareness

This is all about balance and precision. The aim is simple: get the ball to the end marker. Through a number of challenging levels your hand-eye coordination will be greatly tested.

## Train A Mole

**Subject/s:**

**Topic/s:** Multiple Topics

Thought that training moles was easy? Well think again. Your job is to train moles with the aim of improving their intelligence. The moles will be given a question which they will try and answer using a selection of signs. You simply need to select the mole with the correct answer. Do this as many times before the timer runs out.

## Triangulate

**Subject/s:**  Maths

**Topic/s:** *Triangles*

Hordes of alien triangles have amassed near to earth, threatening its survival. You are tasked with getting rid of these creatures. To do so you need to create triangular portals around the aliens to evaporate them. You will need to make specific triangles that match particular triangle species and shapes. Make your planet proud.

## Wild Card

**Subject/s:**  Maths

**Topic/s:** *Probability*

Higher or lower and choose your colour. Test your probability skills in this prediction card game. Your challenge is to successfully predict what type of card (higher or lower, red or black) is going to come next.

## Word Comic

**Subject/s:**  English

**Topic/s:** *Word Identification*

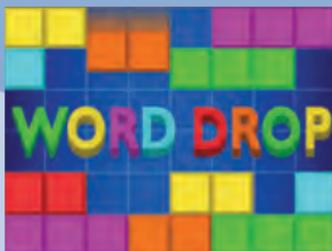

Test your English skills in this interactive comic book game. In this particular comic the words for the pictures are spelled wrong. As the editor, your job is to select the right spellings for the corresponding pictures.

## Word Crunch

**Subject/s:**  English

**Topic/s:** *Word Identification*

A simple word game testing your vocabulary and spelling. You are given a jumbled word grid and need to identify specific words from it. You simply need to clear the grid as quickly as possible.

## Word Drop

**Subject/s:**  English

**Topic/s:** *Word Construction*

Word Drop is a word based building game. Your aim is to create full words using letter blocks that will be falling thick and fast. Make words to gain points and clear rows to make room for more letters. Create as many words as possible within the given time limit and be careful not to let the blocks reach to top of the game grid.

## Allocate Games

EDArcade gives you the ability to assign games to individual students or groups to complete within set times or dates. This can be used as a classroom aide, plenary or as a form of homework to help develop a students' understanding and knowledge of a certain subject or skill.

## Customisation

Our system allows administrators to create custom question sets which can be integrated into the games. This allows you to challenge your students on specific skills, subjects and topics tailored to your students individual requirements.
