

Dear Parent,

As a school we have recently bought into the services of ED Arcade, ED Arcade is an online educational gaming platform which will benefit and support both our teaching staff but most importantly your child.

ED Arcade can help your child with;

- English, Maths and Science support
- Extra homework
- A different way of learning
- Competition between peers in the classroom
- Helps teaching PSHE topics

All of the above comes as a massive benefit to the school when looking at different ways of engagement to support them in becoming comfortable with popular classroom topics. We are offering you and your child the ability to have access to this platform.

ED Arcade helps our teaching staff by;

- Being able to set homework
- Support key school messages (Anti bullying, E-safety and many more)
- Tracking and monitoring of student progress and results
- The games can also be linked to online lessons
- Short animated PSHE video lessons

As a school we are looking for a £2 parent contribution toward this valuable system, the benefits to us as a school are huge but the benefit of a new way to learn for your child are even greater.

We thank you for your continued support and we look forward to working closely throughout the rest of the academic year and beyond.

Kindest Regards,

Head teacher
